FOR IMMEDIATE RELEASE

Signode Industrial Group has announced its participation in Interpack

Industrial packaging company helps make the global bulk transportation of goods possible

Glenview, IL – May 2, 2017 – Signode Industrial Group has announced its participation in Interpack, an international packaging show to demonstrate the global scale of its wide range of packaging related brands.

A broad suite of world-class packaging technology will be demonstrated, from strapping and stapling hand tools to fully-automated stretch wrappers and stretch hood systems. Key SIG brands participating in the exhibit include Signode, Lachenmeier, Haloila Octopus, and Strapex, as well as Orgapack, Böhl, Josef Kihlberg, and Mezger.

An international team of SIG product specialists will be on hand to present an array of new products and innovative packaging solutions to what is anticipated to be one of Europe's largest assemblies of industry decision makers. SIG representatives are looking forward to this opportunity to meet with many of the company's existing customers and potential prospects in a highly compressed timetable.

Interpack will be held at the Düsseldorf exhibition center May 4 – 10, 2017. The exhibition takes place every three years and is expected to attract over 170,000 visitors from 190 countries.
